Standalone DMX lighting instruments designed for creative performers

# WING Key features

# Professional lighting control made easy

Live Events • Theatre & Stage • Schools • Houses of Worship

The Wolfmix WING extends the W1 with dedicated, timed cue playback, responsive motorised faders, and hands on command through customizable mapping. From live events to theatre and worship, it brings confident control to the front of the stage.

Compatible with W1 MK1, MK2, and MK3

## CUE LIST

Create cue lists to trigger presets with custom fade and hold timing, or perform GO commands.

## CONTROL

Enjoy the hands-on feel of a classic console with immediate access to all main functions.

## MAPPING

Fully customizable workspace. Tailored by you. Configure the WING to perfectly fit into your show.
